Good Morning David:

Thank you for your email of today's date. The Director has not made a decision on your file. At this stage of the process, the Director will do her best to review the information on file and make a decision as to whether or not:

- Dismiss or discontinue the complaint,
- Refer the complaint to Tribunal.

The parties will be contacted when that decision has been made. We are not able to provide any timelines at this time and the Director considers each file individually.

Thank you for your patience.

Good evening,

It has now been over 1 year since my initial complaint. It has also been 42 days since the last communication from your office. What ever happened to the expedited 30 day process?

It only appears I receive responses when I chase the Office of Alberta Human Rights Commission (AHRC). Even then, they have been anything but helpful as I continue to battle for my rights.

As a disabled person who has been stressed and significantly impacted by this whole ordeal that never seems to end, I cannot express how disappointed I am in the AHRC right now.

Looking forward to your prompt response.

Yours,

David

Many thanks,

As I am still within the timeline, I would like to substitute the response from earlier with a minor update having managed to go shopping again in the same Costco I was refused entry to on November 16th, 2020. This is clearly very relevant to the complaint and contrary to the position in the recommendation and that of Costco itself.

Many thanks for your understanding in these trying times.

David

Re the attached and below. Please find my response in 10 pages as required. "Response to recommendation S2020 12 0301.PDF"

At this time I am very concerned at the handling of this complaint by the AHRC and hope that this mismanagement is addressed outside of this complaint against Costco.
