Subject: RE: Urgent Meeting request - follow up

Importance: High

To ALL concerned,

I must insist that you respond to the below without further delay. Matters in this province are now accelerating out of control. All relate to the evidence you are continuing to ignore. This week, I have spent every day in a Care Home under outbreak and witnessed not only the repetition of the horrors of 2020 that caused most deaths in Care Homes, but an acceleration of these items. Without our intervention, my mother in law would have died as a result of the negligent and dangerous protocols in place in Alberta, under the direction of this Health Ministry.

From the transfer of sick residents into Care Homes (en masse) to mass vaccination without informed consent in the most dangerous way possible. Masks that are banned for use in China and not approved for use in Canada (KN95 GB2626-2006) being forced on visitors and staff. Protocols designed to cause only suffering and death. One after another residents are tested and then forced into isolation without proper care and tagged with a RED CROSS outside their door like something from the Black Plague. This is but the tip of the iceberg as you are well aware. I have the evidence you are continuing to ignore.

I have many witnesses who continue to raise concerns about what is happening and are aware this is causing the deaths of Albertans as we repeat the worst of 2020 and 2021 combined. All seen in the Excess Deaths in this province that are some of the worst per capita of any province. And again I see the data being manipulated to hide the truth from Albertans.

It has become extremely concerning that the Justice Ministry and the Premier are so willing to allow Albertans to die unnecessarily and ignore the evidence I have that continues to mount.

Subject: Urgent Meeting request - follow up

Importance: High

To ALL concerned,

Over 6 weeks since a promise of a follow up and still no response. This is not **"shortly"**. Months of communications ignored. Ongoing destruction of evidence ignored.

As a retired disabled (on duty) Police Officer and consultant to Alberta Justice, PPSC and police agencies throughout this Province, Canada and beyond, I could not be more disappointed in this continued refusal to follow up on the evidence of willful harm being committed against Albertans and interference with much of that evidence that escalated again yesterday.

Please confirm receipt and a time for an in person meeting with the Ministers to discuss this matter.

Again, I will be at the legislature grounds again today from 12:30pm so unavailable this afternoon.

Please see the below (from the Premiers Office) and attached. I am still waiting for a response and meeting I was promised would be "shortly" at the beginning of October.

Also, why is Alberta Health pushing improper masking and untested vaccines without informed consent and trying to persuade businesses to do the same, creating a liability for those businesses?
