Tr

🚩 JUSTICE DENIED BECAUSE THEY LIED.

Lawyers for the Police, Alberta Justice & the freedom movement are working to stop any investigations into COVID CRIMES - because they are COMPLICIT, along with the politicians ON ALL SIDES.

Insidious lies have MAXIMIZED FEAR from the start.

In January 2021, EPS told its officers that 90 people died from COVID in 4 days. Why? To ensure vaccine & mandate compliance & enforcement.

THIS WAS A LIE.

Wash & repeat for many other organisations.

Was it COVID?

As Premier Smith confirmed on August 17th, 2024 - COVID cases are based on a COVID 'diagnosis' within 60 days (or longer) relying in many cases on RAT (lateral Flow tests) since 2020. Manufactured cases lead to manufactured death diagnoses - BY DESIGN.

Was it 4 days?

These deaths (whatever the real cause from medical malpractice to natural causes) occurred over 112 days going back to the start of October 2020. This practice of stacking deaths (to enhance fear), cases & hospitalizations was common in the government & health as well as the emergency services worldwide.

Stacking COVID data still occurs today although now it is used to hide deaths to prevent questions while care homes & children are targeted through clinics, doctors & schools. Hidden in plain sight, targeted lockdowns & COVID shot campaigns continue to harm Albertans. This insidious compliance by DISINFORMED CHOICE has seen over 46% of children under 1 in Alberta receive UNTESTED COVID Shots (one of the highest rates worldwide). And almost over 1,600 Care Home & Acute Care lockdowns, behind closed doors.

But "it's your choice" ... is the mantra.

THERE CAN BE NO CHOICE IF ALL WE ARE FED IS LIES.

Care Home residents don't choose to be isolated & worse... but the power dynamic between carer & resident/patient is all too powerful when they are told they must;

stay in their room alone

put on a mask

get vaccinated

get tested

and more.

CHOICE!?

Parents are told to speak to their doctor who pushes the shots because the government's own website maintains they are safe, effective & necessary every three months in Alberta.
Necessary for infants 6 months and older...

Premier Danielle Smith and her "Political Allies" & "Friends" know these shots have harmed & killed when they were NEVER justified. There can be no justification when everything was and is based on LIES.

Is Premier Smith et al saying parents are CHOOSING to harm their children?

Did 85% of the eligible Albertan population CHOOSE to potentially harm themselves without ANY mandates? That is the percentage who "CHOSE" without any mandates. COERCED, lied to, frightened but they never really made an INFORMED CHOICE. They still aren't.

So many provable crimes are being covered up for nothing more than fame, fortune & political power.

How much longer will my colleagues stand by and turn a blind eye to their oath?

The ramp-up is happening again. Blood will be on the hands of all who stand by and watch. This is not a spectator sport. WE ALL HAVE 'skin in the game'.

Eventually, this will come for all of us.

The lies continue as does the suffering & death.

It is long past time for my colleagues to realise they have been played and finally DO THEIR JOB.

January 5th, 2021 - the Data vs. the Propaganda - How the fear was spread to ensure vaccine and enforcement uptake.

On January 5th, 2021 the Alberta CMOH stated;
"26 new deaths were reported to us in the past 24 hours"

EPS reported to its staff;
"In the last 24 hours..., 26 new deaths"
suggesting 26 people died in the previous day.

The reality is that the 26 deaths were spread over a 89 day period.

The reality would not create false fear to push the vaccine rollout.

DOES NOT MATCH THE DATA

- In the last 24 hours, there were 26 additional COVID-related deaths reported: three on Dec. 27, three on Dec. 28, two on Dec. 29, two on Dec. 30, one on Dec. 31, one on Jan. 1, two on Jan. 2, four on Jan. 3, and eight on Jan. 4.

Subject: CMOH Update

Hello Sir,

Here is a quick overview of the CMOH COVID-19 update just now and potential impacts to EPS.

as
IAPU 288
2023-G-0163

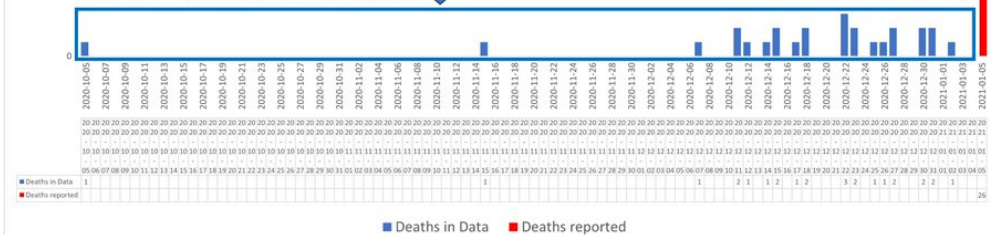

Dr. Hinshaw, CMOH

- Hopes that 2021 will bring us closer to our old normal
- Addressed inaccurate information circulating that vaccines may be wasted or spoiled
 - Doses are prepared specifically for appointments
 - Appointments are overlooked to ensure there is always a patient to be vaccinated on site
 - If patients don't show up for appointment, on-site staff will be vaccinated in order to not waste vaccines
- Human error in vaccinations is always possible, so far it has been found to be lower than in other vaccination programs
 - In last 24 hours 843 new cases in 10,300 tests, positivity rate 8.2%, 26 new deaths
 - 919 in hospital, 140 in ICU
 - Over 1,100 deaths in AB due to COVID-19 in total
 - It will be months before we are able to offer vaccines to general population

Dr. Hinshaw, CMOH

- Hopes that 2021 will bring us closer to our old normal
- Addressed inaccurate information circulating that vaccines may be wasted or spoiled
 - Doses are prepared specifically for appointments
 - Appointments are overbooked to ensure there is always a patient to be vaccinated on site
 - If patients don't show up for appointment, on-site staff will be vaccinated in order to not waste vaccines
 - Human error in vaccinations is always possible, so far it has been found to be lower than in other vaccination programs
- In last 24 hours 843 new cases in 10,300 tests, positivity rate 8.2%, 26 new deaths
- 919 in hospital, 140 in ICU
- Over 1,100 deaths in AB due to COVID-19 in total
- It will be months before we are able to offer vaccines to general population

Subject: CMOH Update - 11 January 2021

Hello Sir,

Here is a quick overview of the CMOH COVID-19 update just now.

...

IAPU 268
2023-G-0163

Dr. Hinshaw, CMOH

- 13,917 active cases in AB (YEG zone is at 5,441 active cases),
- 639 new cases, positivity rate of 6.3
- 811 in hospital, out of those 130 in ICU
- 23 deaths in last 24 hours
- Resumption reporting of school Covid-19 cases later this week
- In Alberta only seven (7) adverse health reactions were reported, only three (3) were allergic reactions, none anaphylactic. Current rate of adverse events similar to other vaccines.

<https://drive.proton.me/urls/DMHRAHAYX0#JNXkDgJIJ6qX>

January 21st, 2021

EPS - 16 deaths in last 24 hours IAPU 272

“16 deaths in last 24 hours”

CMOH (Alberta Government)

“16 new deaths have also been reported to us in the last 24 hours”

“In the last 24 hours, there were 16 additional COVID-related deaths reported: one on Jan. 7, one on Jan. 15, one on Jan. 17, one on Jan. 18, nine on Jan. 19, and three on Jan. 20.”

Subject: CMOH Update - 21 January 2021

Hello Sir,

Here is a quick update from the CMOH update just now.

Current measures remain in place, NO easing of any restrictions. No potential date given.

...

IAPU 272
2023-G-0163

Dr. Hinshaw, CMOH

- Today is the one (1) year anniversary that Dr. Hinshaw first addressed Albertans regarding COVID-19.
- 10,256 active cases in AB (YEG zone is at 3,561 active cases)
- 678 new cases, positivity rate of 4.8%
- 726 in hospital, out of those 119 in ICU
- 16 deaths in last 24 hours
- 178 alerts in schools with outbreaks in 4 schools, 23 schools with in-school transmission.
- Seeing fewer school aged kids with COVID-19 now than when schools were closed over the holidays.

<https://drive.proton.me/urls/DMHRAHAYX0#JNXkDgJIJ6qX>

January 25th, 2021

EPS - 25 deaths in last 24 hours IAPU 41

“25 deaths in last 24 hours, aged 41-100 years old”

CMOH (Alberta Government)

“25 new deaths have been reported to us in the last 24 hours”

“In the last 24 hours, there were 25 additional COVID-related deaths reported: one on Dec. 31, one on Jan. 11, two on Jan. 16, one on Jan. 18, one on Jan.

Update 177: COVID-19 pandemic in Alberta (Jan. 25, 6 p.m.)

Alberta has updated the border pilot program and is screening for COVID-19 variants. Continue to follow health guidelines to protect others as well as the health-care system.

<https://www.alberta.ca/release.cfm?xID=7613659FAD46E-C959-9B86-B21E6AAA364...>

January 25th, 2021 - the Data vs. the Propaganda - How the fear was spread to ensure vaccine and enforcement uptake.

On January 25th, 2021 the Alberta CMOH stated;
"25 new deaths were reported to us in the past 24 hours"

EPS reported to its staff;
"25 deaths in last 24 hours, aged 41-100 years old"
suggesting 25 people died in the previous day.

The reality is that the either 24 deaths were spread over a
38 day period. Or 29 deaths were spread over 56 days.

The reality would not create false fear to push the vaccine rollout.

DOES NOT
MATCH THE
DATA

- In the last 24 hours, there were 25 additional COVID-related deaths reported: one on Dec. 31, one on Jan. 11, two on Jan. 16, one on Jan. 18, one on Jan. 20, 12 on Jan. 23, and seven on Jan. 24.
<https://www.alberta.ca/release.cfm?xID=7613659FAD46E-C959-9B86-B21E6AAA36410718>

What the publicly available government data showed (24th - 24 deaths).
What the publicly available government data showed (25th - 29 deaths).

Subject: CMOH Update - 25 January 2021

Hello Sir,

Here is a quick update from the CMOH update just now.

8AM

Dr. Hinshaw, CMOH

- 362 new cases, positivity rate of 5.0%
- 837 currently in hospital, out of those 113 in ICU
- 25 deaths in last 24 hours, aged 41-100 years old
- 16 (8/17) variant - First case without travel connection identified - concerning development
- Some historical cases will be added to database today due to error, resulting in a total of another 400 cases over five week period
- 259 schools on active alerts and 9 with outbreaks in total 500 school related cases
- CMOH thanks all Albertans for their efforts
- Hospitalizations remain very high, plus COVID-19 hospitalizations have longer hospital stay times
- We must continue with the current measures until these hospitalization and ICU numbers come down

Actions Today

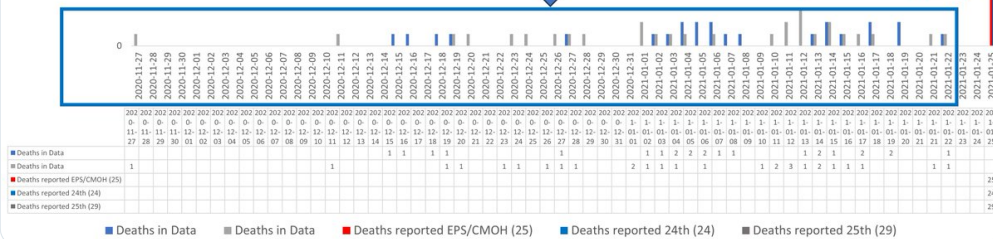

- Home - current restrictions remain in place as is for the foreseeable future. Potential for update in the coming days?
- CMOH orders currently in place don't have expiry date, but rather state that they are in effect until rescinded.

Potential EPS Impact

Interest

- Recommend messaging to all employees this Friday to include information on the new variants and stressing the importance to follow current measures of masks, distancing and frequent hand washing.

What EPS Officers were told (25 deaths in 1 day).

IAPU 41
2023-G-0163

- 362 new cases, positivity rate of 5.0%
- 637 currently in hospital, out of those 113 in ICU
- 25 deaths in last 24 hours, aged 41-100 years old
- UK (B117) variant – first case without travel connection identified – concerning development
- Some historical cases will be added to database today due to error, resulting in a total of another 400 cases over five week period
- 259 schools on active alerts and 9 with outbreaks in total 500 school related cases
- CMOH thanks all Albertans for their efforts
- Hospitalizations remain very high, plus COVID-19 hospitalizations have longer hospital stay times
- We must continue with the current measures until these hospitalization and ICU numbers come down

Actions Today

- None – current restrictions remain in place as is for the foreseeable future. Potential for update 'in the coming days'
- CMOH orders currently in place don't have expiry date, but rather state that they are in effect until rescinded.

Potential EPS Impacts

IAPU 42
2023-G-0163

Internal:

- Recommend messaging to all employees this Friday to include information on the new variants and stressing the importance to follow current measures of masks, distancing and frequent hand washing.
