Importance: High

Dear Premier Smith,

Two urgent items.

Firstly, a concern regarding privacy (an area in which I am a recognised expert). Could someone please explain to me who read the personal confidential email of the Health Minister yesterday afternoon, Tuesday, May 30, 2023 2:43 PM? Note that at this time, there was no Health Minister in Alberta. A new cabinet has not been selected and sworn in and the previous Health Minister failed to be elected.

We are all aware of the NDP MLA who was caught (and pled guilty to) hacking Alberta's COVID-19 vaccine records portal. Now the internal emails of the Health Minister appear compromised.

was read on Tuesday, May 30, 2023 2:42:31 PM (UTC-07:00) Mountain Time (US & Canada).

Secondly, I have included that original email, also sent to your office, along with the Leader of the Official Opposition (at the time and again now) and my then MLA for Devon and Drayton Valley. Note that, along with so many other critical

communications, this was left unanswered by yourself and the others on the original email.

Since this time, you will know I also sent emails regarding the outright lies told by the media, CMOH and government (including many of your previous cabinet) at the start of COVID. This again has received no response, other than for the source of that information to suddenly be placed 'on maintenance' so providing no updates again. This is something that would never happen in the normal course of operations for a government department, as I know all too well due to my professional experience in these areas. Timing, as they say, is everything.

COVID-19 Alberta statistics

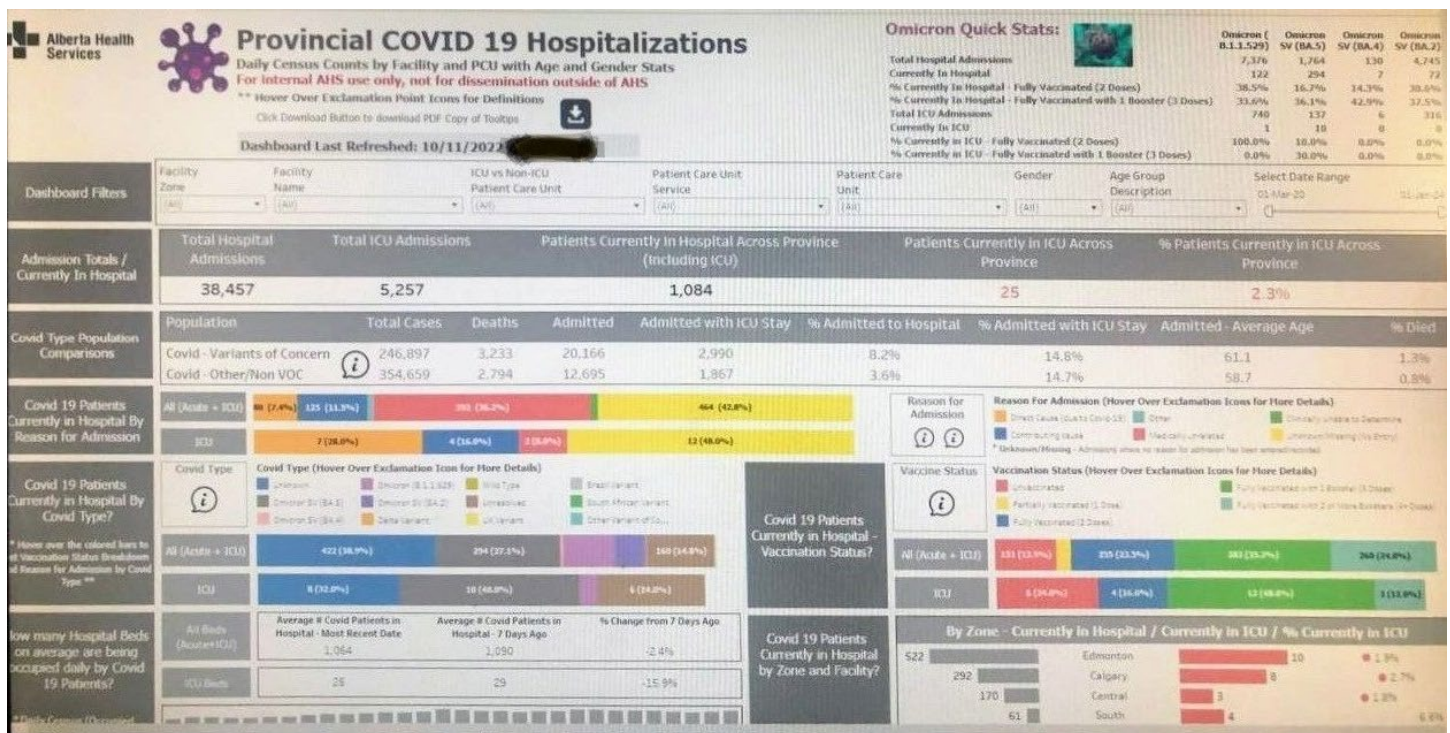

Interactive aggregate data on COVID-19 cases in Alberta

📘 Data reporting for the week of May 16-22, 2023, is delayed because of a systems update. We apologize for any inconvenience and will aim to resume reporting on May 31, 2023.

📘 COVID-19 data included in the interactive data application are up-to-date as of end of day May 15, 2023, unless stated otherwise.

[View Alberta seasonal influenza statistics](#)

Will we get ALL of our data back today that AHS has always had?

Will you also explain why AstraZeneca and Janssen are still being given in this province despite the known serious risks (you acknowledged in 2021) and having been removed by many countries as early April 2021?

You said yesterday and on election night that you would listen to ALL ALBERTANS. As a disabled Albertan and retired police officer with the interest of all Albertans at heart, I am waiting to be heard.
