Totally agree. I'm convinced I had it last March when it was impossible to get a test. There will be a reckoning after this. No wonder the pharma companies were shielded from liability.

Thanks (just a tiny piece of what I have been gathering for over a year now).

When people say the 2021 numbers include other vaccines... this shuts them up. This is the data just for COVID vaccines which covers a little bit of the end of 2020.

VAERS (USA)

<https://medalerts.org/vaersdb/findfield.php?TABLE=ON&GROUP1=CAT&EVENTS=ON&VAX=COVID19>

As of April 16th. 3,186 reported deaths out of 86,080 adverse reactions reported for JUST COVID Vaccines. This is up from data just looking at 2021 in the initial table I sent.

In the UK.

Although it is reported that 33 million people in the UK have been vaccinated (by April 26th, 2021), only 12 million have had the second dose. The second dose in trials caused the most severe reactions.

Again, adverse side effects in the UK (like the VAERS system in the US) are heavily underreported.

However, compared to all vaccinations in prior years, the COVID vaccines are seeing almost unbelievable reports of short term death and adverse reactions. From the Oxford Vaccine Group in the UK in 2019.

<https://vk.ovg.ox.ac.uk/vk/vaccine-side-effects>

"In the UK between 1997 and 2003 there were a total of 130 reports of anaphylaxis following ALL immunisations. Around 117 million doses of vaccines were given in the UK during this period. This means that the overall rate of anaphylaxis is around 1 in 900,000."

That being said, in the UK the numbers are worse for reactions in particular.

Pfizer As of April 16th (data up to the 14th).

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977005/COVID-19 mRNA Pfizer- BioNTech Vaccine Analysis Print.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977005/COVID-19_mRNA_Pfizer-BioNTech_Vaccine_Analysis_Print.pdf)

334 reported deaths out of 143,034 adverse reactions reported. AstraZeneca

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977006/COVID-19 vaccine AstraZeneca analysis print.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977006/COVID-19_vaccine_AstraZeneca_analysis_print.pdf)

627 reported deaths out of 548,495 adverse reactions reported. 'Other' Covid Vaccine

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977007/COVID-19 vaccine brand unspecified analysis print.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/977007/COVID-19_vaccine_brand_unspecified_analysis_print.pdf)

12 reported deaths out of 1,611 adverse reactions reported.

In the UK between 1997 and 2003 there were a total of 130 reports of anaphylaxis following ALL immunisations.

COVID Vaccinations As of April 16th, 2021					
ONS UK	Reactions	Deaths	Months	Per month Reactions	Per month
AZ	548,495	627	3.5	156,713	
Pfizer	143,034	334	3.5	40,867	
Other	1,611	12	3.5	460	
Total	693,140	973	3.5	198,040	

Then again, Kenney said today (attached) that 10% of Albertans had immunity because they already had COVID. Yet we have only had 181,806 cases (4% of Albertans) have had it... most have been asymptomatic and never knew they had it (like my brother in law in Texas who just discovered he had antibodies after giving blood. He hasn't been sick since December 2019 around the time most people got sick.. but were not dying).

Based on this, why are we not doing widespread antibody testing instead of wasting all those useless and dangerous vaccines and useless PCR and lateral flow tests?

Up to now a lot more people caught it after full vaccination than anyone who was recorded of potentially getting after natural immunity.

Thanks **REDACTED**

As we continue to push these experimental vaccines, maybe a question can be raised in caucus. I am using the US data but the UK and France mimic this pattern as do many other countries reporting. Maybe a story for Danielle to bring on Deena Hinshaw or Tyler Shandro (or Verna Yiu) to answer.

Not these reported numbers are know to be severely underreported. Only about 1% of the data is captured.

<https://thevaccinereaction.org/2020/01/only-one-percent-of-vaccine-reactions-reported-to-vaers/>

<https://digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-lazarus-final-report-2011.pdf>

From an average of 14 reported deaths a month to nearly 900!
From an average of 4,000 reported reactions a month to 21,500!
And growing week by week at an accelerated rate.

Times them by 100 and people should be scared.

VAERS Data just spiked again between April 8th and April 16th. The increase doubles each week. from a rise of 250 to a rise of 500. The events went from 57K to 75K. When people say... but that includes all vaccines in 2021. This shows the data for just COVID vaccines which goes into the end of 2020. The numbers are higher then. 86,080 reactions and 3,186 dead just from the COVID vaccines.

What other drug would still be on the market with this data? One that doesn't change anything either...

USA.

<https://vaers.hhs.gov/data/datasets.html>

2017 - Whole year, all vaccines.
165 reported deaths out of 38,911 adverse reactions reported.

2018 - Whole year, all vaccines.
165 reported deaths out of 49,138 adverse reactions reported.

2019 - Whole year, all vaccines.
183 reported deaths out of 48,444 adverse reactions reported.

2020 - Whole year, all vaccines.
166 reported deaths out of 46,263 adverse reactions reported.

2021 and the COVID jab.
As of March 7th.
1,426 reported deaths out of 20,586 adverse reactions reported.

As of March 11th.
1,642 reported deaths out of 27,956 adverse reactions reported.

As of March 19th.
1,957 reported deaths out of 34,121 adverse reactions reported.

As of April 1st.
2,241 reported deaths out of 46,164 adverse reactions reported.

As of April 8th.
2,500 reported deaths out of 57,641 adverse reactions reported.

As of April 16th.
3,084 reported deaths out of 75,364 adverse reactions reported.
