Dear Chief[Redacted]

My name is Darol Dickson. I am a retired UK Police Officer (residing in Alberta since 1995).

The matters below are far more complex than can be adequately explained in this letter. As a result, I respectfully request an urgent meeting with yourself and any appropriate officers. From there, I would be able to provide all relevant material, details of witnesses and any additional assistance where I can.

As you will see from the included information, this could not be handled by walking into the front desk of any police station due to the parties involved and the seriousness of the offences. I have tried to elevate this matter through all official channels. However, as of this time, that has exposed further malfeasance, obstruction, and what I believe to be ongoing criminal activity.

1. Obstruction of Justice and destruction/withholding of critical evidence of significant crimes against the person.
2. Manipulation of official government records to support offences against the person.

I have a large body of evidence to support the below but feel this requires discussion and presentation in a more secure and appropriate setting.

Obstruction of Justice and destruction/withholding of critical evidence of significant crimes against the person.

On or around April 5th, 2023, I was contacted [Redacted] employed as a nurse by AHS during COVID. This contact related to an article published online by then UCP freedom lawyer (and current Chief of Staff to the Alberta Justice Minister), [Redacted].
https://www.cbc.ca/news/canada/edmonton/ab-doctors-withdraw-against-nurse-who-shared-information-about-covid-19-vaccines-1.6807

This article appeared to indicate some serious concerns related to the COVID vaccine rollout that were being hidden from the public and thus would contribute to a willful lack of Informed Consent related to medical interventions. These would not only be offences under the relevant health legislation but

Justice Ministers Chief of Staff

**CALGARY, ALBERTA:** The Justice Centre for Constitutional Freedoms is pleased to announce that a Canadian nurse is now able to resume her nursing career after being accused of unprofessional conduct for publicly sharing her experiences administering Covid-19 vaccinations and witnessing high rates of Covid-19 vaccination injuries. In early 2022, a provincial nursing regulator received a complaint from a public health authority that this nurse, whose name is being withheld to protect her privacy, had allegedly violated privacy policies by publicly sharing her experiences with the Covid-19 vaccines. Her lawyer, Keith Pridgen, was able to resolve the matter without any admissions of wrongdoing or any restrictions on her license to practice.

The Justice Centre was contacted by this nurse in mid-2022, after she was notified that the nursing regulator had received the complaint. The complaint alleged that she had, while administering Covid-19 vaccines, provided honest answers to her patients' questions, and had conducted her own investigation into Covid-19 vaccine research and development. The complaint also alleged that she had unlawfully breached the health authority's privacy policy by disclosing instances where mass Covid-19 vaccination clinics had resulted in significant numbers of vaccination injuries, including serious injuries requiring multiple ambulances to be called to the vaccination clinic.

"Canadian nurses deserve better than to be threatened with discipline for telling the truth to the public," said Mr. Pridgen. "Professional regulators must stop this nation-wide inquisition against doctors and nurses who simply choose to uphold their ethical obligations to obtain meaningful informed consent", he further added.

Regards,

**Keith Pridgen, JD**

**Conclusion**

The Alberta Government is strongly encouraged to:

1. Ensure that all Albertans who receive a modRNA injection in the future, including boosters, sign an accurate waiver (revised AHS Consent for COVID-19 Immunization form), acknowledging that they are aware of new and substantiated evidence of the potential harm that may arise from their decision to proceed with the inoculation.
2. Modify the current AHS Consent for COVID-19 Immunization form (37) as recommended in the 2nd document entitled "SUGGESTED ADDITIONS TO THE ALBERTA HEALTH SERVICES CONSENT FOR COVID-19 IMMUNIZATION FORM".
3. Meet with the scientific, legal, and political co-authors if clarification is required (highly recommended).
4. Consider funding research to ensure the safety of modRNA injections on behalf of Albertans.

Respectfully,

**Reasons for Judgment of the Honourable Justice B.E. Romaine**

**I. Introduction**

[1] This application involves challenges to certain orders[redacted] by the Chief Medical Officer of Health for Alberta (CMOH), Dr. Deena Hinshaw, with respect to the Covid-19 pandemic (the "Impugned Orders"), both on a constitutional basis and on the basis that the orders were ultra vires the *Public Health Act* RSA 2000, c P-37.

[2] I find that the Impugned Order were ultra vires the *Public Health Act*.
