

ALL CAUSE MORTALITY DATA – CANADA

Stats Canada Data as of July 11th, 2024

All provinces are still lagging in reporting for 2023/2024 and many are still adding data to 2022. The final all cause death numbers for all provinces is expected be above the high of 2022 as a result. January 8th, 2024, to July 11th, 2024, reports saw an increase in Canadian reported all-cause deaths of;

- -65 in 2021
- +16,985 in 2022
- +105,270 in 2023

Only Alberta, BC, and Quebec have reported up to Week 18 for 2024, but even these numbers are not yet confirmed and will likely rise in the coming months.

Alberta is showing a disturbing increase in deaths in the under 45 age groups for 2023 that continues to rise. These are not deaths being driven by immigration or the “baby boomers”. Alberta is a stark example of this younger age groups dying at an accelerated rate.

Nova Scotia deleted 25 weeks of data from 2023 in April and again in June deleted 37 weeks of data from 2023. Now they have added in clearly unreliable data for most of 2023 with at least 3,000 deaths missing from the data. Manitoba has only reported to Week 29 of 2023. This excludes approximately 6,000 deaths for Manitoba. At a Canadian Federal level there are approximately 9,000 all-cause deaths still unreported for 2023 alone. In 2024, to Week 18 there are approximately 76,000 all-cause deaths still unreported, which places 2024 on course to be the worst year for all-cause deaths in history.

2024 provincial data is showing this will only get worse from here.

Change in All Cause Mortality 2015-2022 - Ontario

<https://www150.statcan.gc.ca/n1/pub/71-607-x/71-607-x2021028-eng.htm>

**THIS IS NOT COVID
THIS IS NOT AN AGING POPULATION
THIS IS NOT IMMIGRATION**

SO WHAT IS KILLING ALBERTANS SINCE 2020?

WHY IS NO ONE TALKING ABOUT THIS?

**In 2022 in Ontario there were 20,935 more deaths than 2019, and 13,445 more deaths than 2020 (the 'pandemic' year)
Note that 2022 and 2023 data are still being modified.**

ALL CAUSE MORTALITY DATA – NOVA SCOTIA

Stats Canada Data as of July 11th, 2024

Why do we no longer see data on 'By Vaccine Status' or 'Co-Morbidities'?

<https://www150.statcan.gc.ca/n1/daily-quotidien/221208/dq221208f-cansim-eng.htm>

Partial data added back for 2023 but the numbers look very suspicious and clearly underreported. And 2024 is looking very bad.

Data up to 1pm ET July 11th, 2024

* 37 Weeks REMOVED from 2023 reported data without explanation.

WHAT IS HAPPENING IN NOVA SCOTIA?

Partial data added back for 2023 but the numbers look very suspicious and clearly underreported.

Data up to 1pm ET May 9th, 2024

Nova Scotia

WHERE DID ALL THE DATA GO FOR NOVA SCOTIA?

Nova Scotia deleted 25 weeks of data from 2023 in April. This removed over 4,900 deaths from the data. In May Nova Scotia reported to Week 38 with noticeable lagging in weekly reporting. This significantly impacts the Federal reporting as all data originates from the Provincial systems.

Data up to 1pm ET April 18th, 2024
