The never ending lies.

- Just Two Weeks
- Trust the Experts. Trust the Models
- Cases, Hospitalizations and Deaths 'with'
- Died 'yesterday' (or did they?)
- Isolate to save lives
- 2 meters (or 6 feet)
- Wear a 'mask'
- Wear a face shield (or goggles)
- We need more ventilators
- Overwhelming the system
- Saving grandma
- Safe and Effective
- Stops Infection
- Stops Transmission
- Stops Hospitalizations
- Stops Deaths
- 'Focused Protection'
- etc...

How to program a world for a 'New Normal'

From here they have moved from using that information to provide predictive sales marketing, to controlling a population.

Why waste effort trying to find a fit between a product or message and a client when you can persuade a client to believe a message or buy a product. All the while thinking they are in control of their own actions.

These techniques have been used for generations in sales and entertainment. Just ask Derran Brown.

The Micro Push, Behavioral Priming, Perception Without Awareness...and more.

How to program a world – Engaged Followers

When you feel you are part of the experiment but not part of the responsibility, you may go further than you ever thought possible.

This is not a good thing, as Stanley Milgram discovered.

His work did not prove 'blind obedience' or 'JUST following orders' (there is that JUST word again). There is Nothing JUST about the last three years (not yet at least). And JUST is a word that should be struck from the English language as anyone will attest from hearing 'Could you JUST...'

What the experiments did show though was a significant increase in compliance in the more 'academic' population. Basically the 'smarter' you were (perceived) to be, the easier to fool.

They were not truly fooled though. They were fully ENGAGED in the experiment. Even though some knew they could be doing serious harm and maybe killing someone. They JUSTified it for the greater good...

How to program a world – Engaged Followers

65% overall and almost 100% of academics followed along with the experiment to the end. Their only push from the 'Expert' was one of four prompts.

1. Please continue.
2. The experiment requires you to continue.
3. It is absolutely essential that you continue.
4. You have no other choice but to continue.

Only at the point of an ORDER (prompt 4) did they get significant push back. And that was 100% push back.

Now do you know why the soft sell for COVID responses was used?

Why we were 'all in this together'...

We are doing this to save grandma...

The payouts, the bribes, the coercion, the guilt... way before the Stick!

How to program a world for a 'New Normal'

The messages never had to be true. They just had to sound believable.
(see *ChatGPT* later)

'Cases' that were 'assumed' not proven by any standard of the past. Numbers and models that could not be questioned even when they were proven to be criminally inaccurate - both past and present. Believe the 'Experts' who were shown to be wrong at every turn.

They asked you (then told you) to do things that never made any sense. You complied because they were the 'Experts'. You were scared. And they gained your compliance in ever increasing escalations.

Welcome to the Micro Push.

JUST two weeks. JUST wear a mask - for now... Yes, we can all do that. How about three years? Or forever?

They asked for two weeks. They intended so much more. The same ask, the same messages, worldwide, in lock step. Had they asked for or ordered more at the start, you would NOT have complied. Yet here we are in the 'New Normal' you said you would never accept.

How to program a world - Social Conformity

Once a critical mass was arrived at, the stick came out. Why?

Remember Milgram... People pushed back when given an Order.

But when most people around you are wearing masks, who are you going to look to for help? It is easier to hide in the crowd than stand up and push back.

But what is the result of social conformity? It brings mob mentality, herd mentality, a lack of individualism and a lack of independent thought. One follows, all follow. One panics, all panic.

Why do you think the Mask Mandates didn't come in until the major cities had almost 96% voluntary compliance? The province of Alberta waited longer for its mandate, even though they all knew masks did not work and were harmful.

<https://www.facebook.com/dksdata>

<https://www.facebook.com/DavidandKarenD/>

How to program a world - Social Conformity

In a world of noise and confusion, people listen to the common voice. The media, anti-social media and governments worldwide all sing the same song, so they must be right.

However, in a crowded theatre when one voice shouts fire, it ripples through the crowd like a virus... no-one looks for smoke, no-one looks for fire, they just panic and repeat the same chant.

It is human nature. We cannot change that. People can exploit that though. They do every day.

In the panic and fear, the voice of reason pushing back against the crowd... just gets crushed underfoot.

The 96 at Hillsborough died because of that same panic herd mentality and 'leadership' incompetence ...

Never Forget That.

I don't.

I am a proud Scouser and I was a Bobby at the time.

These two children ignored a 'social distance' from generations of dislike bordering on hatred and it united a nation.

Don't let 'social distancing' and more break that apart for no good reason at all.

How to program a world with False Hope

Government and Media – all in it together.

Throughout the last three years, it has become clear just how little light there is between every political party and their media and big tech counterparts.

They may 'sound' like they are on your side. But take a closer look.

How many really saved you? How many really cared?

Every day, you find another lie exposed from the #lockdownfiles, to the contents of my Twitter feed.

What is worse is most of this has been known from the start. All 'hidden' in plain sight.

But as long as someone is going to save you, you will never save yourself.

How to program a world - Learned Helplessness

But I have to wear a mask to get health care, don't I? But what if that is a lie?

If you are told enough times "YOU CAN'T", soon it will become a reality.

The Seligman experiments showed how when you remove hope (see Richter) a person fails to even try to fight back.

But the reality is far from the lies. As we have shown, over and over, you can push back. There is no CAN'T. My mother-in-law is a case in point - the only resident to never be locked down at Christmas. Never tested, never masked, never vaccinated... and unlike most, she is still going strong - just like me.

So, DO or DO NOT. There is no TRY!

AHS

"Patients requiring health care shall not be refused care if their designated family/support person or visitor is unable or refuses to mask."

"No patient shall be denied service in AHS because they cannot or will not wear a mask."

How to program a world – Behind the Mask Charade

Wearing a mask does a number of things but the most significant are;

- Increased CO₂ (impacting the amygdala)
- Increased viral and bacterial loads
- Increased stress
- Reduced ability to communicate
- Increased cognitive impairment
- False sense of safety
- Psychological and physical damage
- Enhanced Discrimination (especially with a hidden disability)
- Cost
- Environmental impacts
- This list goes on.

And remember

*"I'm educated enough to know that I could be asymptomatic
and still give you the virus."
So, will you never take it off again?*

How to program a world – Behind the Mask Charade

But it's all over isn't it? We don't need to wear masks anymore.

Unless you are in a Care Home or going for medical care, let alone calling an ambulance.

If so, you are out of luck.

Patient Relations is starting to dread my calls in Alberta.
But I am not the only one.

And the Savior of Alberta – Danielle Smith...
Check the links out later and you decide.

How it began

In December of 2019, the messaging started.

The Best Laid Plans – ‘Tell me about the cases...’

The world over, we were shown exploding cases like a Hollywood movie day after day. It started in a far away location so not to worry. It won't come here...

Your expectation for information is now reset. You never saw flu stats broadcast daily on the news (despite a billion cases a year and hundreds of thousands of deaths).

But cases of a coronavirus halfway across the world... you could not take your eyes off it... addicted to the lies, you could not get enough.

A micro push on expectations and priming to accept the numbers without question. Everyone sat at the TV waiting for the daily update because everyone sat at the TV waiting for the daily update... Social conformity at its best.

How it began

What was the reality?

This was not our first rodeo (respiratory virus). It won't be our last. We've had worse!

- All years – Seasonal Flu - (Influenza-A) and (Influenza-B)
- 1918 H1N1 (Spanish Flu) (Influenza-A)
- 1957 H2N2 ("Asian Flu") (Influenza-A)
- 1968 H3N2 (Influenza-A)
- 1997 H5N1 (Highly Pathogenic Asian Avian Influenza) (Bird flu) (Influenza-A)
- 2003 - SARS (Severe Acute Respiratory Syndrome) - Coronavirus (SARS-CoV-1) (no cases since 2004)
- 2009 - H1N1 (Swine Flu) (Influenza-A)
- 2015 - MERS (Middle East Respiratory Syndrome) – Coronavirus (EMC/2012) (first case 2012, still active 2020)
- 2019 - COVID-19 (SARS-CoV-2) – Coronavirus

- What was this new obsession with a 'common cold' variant?

How it began

A video I put together in SEPTEMBER 2020!

<https://rumble.com/v18vrcy-when-did-they-know.html>

Canada's Health Minister Patty Hajdu admitted she was briefed by **Dr. Tam (the WHO direct contact)** after returning from holiday in late 2019. **She said they knew the dangers then. They did nothing.**

In Alberta "Jitendra 'J.P.' Prasad, Head of AHS [Health] Procurement heard disturbing news about a **'strange flu' in Wuhan, China, in early December 2019**"

"We have contacts from China and a lot of the conversation from them was, 'Hey, J.P., we think something is happening that may impact us.'"

Why did the government do nothing to alert the public?

Which brings us back to the first lies in Alberta
1,046 or 1,533 deaths in 2020?
Which lie is worse?

Moving deaths later to fit a narrative, or reporting deaths that had happened a long time before to further a narrative?
768 days from a COVID diagnosis to reported dead, or 768 days to report a death?
Which is worse? – The Government Lied and People Died!

How it began

Date	Report	Running Total
2020-03-05	March 5 – A woman in her 50s from the Calgary area who recently travelled aboard the Grand Princess cruise ship in California was identified as Alberta's first presumptive case of COVID-19. This case was confirmed on March 6, and the patient is self-isolating.	1
2020-03-06	March 6 – A man in his 40s in the Edmonton region was announced as the province's second presumptive case after he tested positive upon returning from visiting the United States. He had visited Illinois, Michigan and Ohio before returning home on Feb. 28. The source of his infection is a companion who travelled with him in the U.S. who had previously been a passenger on the Grand Princess cruise ship. This travel companion is one of the confirmed cases in B.C.	2
2020-03-08	March 8 – Health officials said a man in his 60s from the Edmonton region was the third presumptive case. He had been on the Grand Princess cruise before he returned to Alberta on Feb. 21. The fourth presumed case is a woman in her 30s from the Calgary region. She had been in close contact with someone who had recently travelled in Europe, including visits to Ukraine, Turkey and the Netherlands. This person is also a resident of Alberta, and is currently undergoing tests. Both presumptive cases are recovering in isolation at home.	4
2020-03-09	March 9 – Alberta health officials announced three additional cases, bringing the province's total to seven. One case involves an Edmonton-area woman in her 70s who had come in contact with the case announced on March 8 who had contracted the virus while on the Grande Princess cruise. The sixth case is a Calgary-area man in his 30s who had travelled in Ukraine, the Netherlands and Turkey who had also been in close contact with the fourth case identified on March 8. The last case is a Calgary-area woman in her 50s who was on the MS Braemar cruise ship from Feb. 11 to March 4. All Alberta cases are now confirmed and the province no longer requires additional confirmation from the National Microbiology Laboratory.	7
2020-03-10	March 10 – Seven more cases were confirmed by health officials, doubling the number of cases in Alberta. All patients likely caught the virus while travelling. Destinations included France, the Netherlands, Egypt, Iran, Taiwan, Germany, Malaysia, Trinidad and Tobago, Panama, the Philippines and the United States. Several travellers visited more than one country. One individual was also on the MS Braemar cruise. One of the patients had a pre-existing health condition and was transported to hospital. Three are from the Edmonton area, a male in his 70s and a female in her 60s who had travelled together, and a female in her 30s. Four cases are from the Calgary area, involving a man in his 50s, two females in their 30s, and a female in her forties.	14
2020-03-11	March 11 – Five new cases of COVID-19 were identified in Alberta. All of those cases were linked to travel. One case involved an Edmonton man in his 30s who recently came back from international travel and also visited Misericordia Hospital for an unrelated, previously scheduled treatment prior to being tested and diagnosed. Alberta Public Health was contacting anyone who was in direct contact with him. Alberta's chief medical officer of health said there is no risk to patients at the hospital "at this time." The other four cases are a man in his 20s and three women in their 30s, three of whom are from Calgary and one from the central zone. All five patients recently travelled abroad to countries including Iran, Egypt, Spain, Washington state and Mexico.	19
2020-03-12	March 12 – Four new cases, all in the Calgary-area, were announced, bringing the provincial total to 23. The cases involved a two-year old child, a man in his 50s, a woman in her 30s and a woman in her 70s. The four recently returned from travel to Jordan, Egypt, France, Germany, and Florida.	23
2020-03-13	March 13 – Six new cases were confirmed, all involving travel. One was a man from Edmonton who attended a conference in Vancouver where a positive case was identified. The remaining cases were from the Calgary area. One recently returned from Florida, while the others were household contacts of a previously confirmed case.	29
2020-03-14	March 14 – Ten new cases were confirmed in Alberta, including two in which patients were admitted to intensive care. Six of the new cases were in the Calgary Zone, the other four were in the Edmonton Zone. Eight of the cases were connected to international travel. The province was investigating the other two cases. Both patients admitted to intensive care were in their 60s.	39
2020-03-15	March 15 – Alberta health officials announced 17 new cases, bringing the total to 56. Two of the new cases were believed to be 'community cases' with no connection to international travel.	56
2020-03-16	March 16 – There were 18 new cases – the highest single-day tally for the province so far.	74
2020-03-17	March 17 – Health officials in Alberta announced 23 new cases.	97
2020-03-18	March 18 – Alberta health officials announced another 22 cases of COVID-19, for a total of 119 cases. Seven of the cases were suspected to be community transmission and three were in Intensive Care Units.	119
2020-03-19	March 19 – The province had its first death from COVID-19 – a man in his 60s with an underlying health condition – and 27 new cases.	146
2020-03-20	March 20 – Alberta confirmed 49 new cases, bringing the province's total to 195. As many as 11 of the total cases, all in the Edmonton and Calgary areas, may be community transmitted. Ten patients are in the hospital, half of whom are in intensive care.	195
2020-03-21	March 21 – Health officials announced 31 new cases of COVID-19 in Alberta, bringing the provincial total to 226. The province believed as many as 16 of the cases were due to community spread. Eleven people were in hospital, six of which were in the intensive care unit. The province also identified that one of the cases originated in a seniors' home.	226
2020-03-22	March 22 – An additional 33 cases were reported in Alberta. There were 18 people hospitalized, seven of whom were in intensive care.	259
2020-03-23	March 23 – The province confirmed 42 new cases, with up to 11 suspected to be from community transmissions.	301
2020-03-24	March 24 – There are 57 new cases of COVID-19 in the province as well as the province's second death due to the disease. The victim is a woman in her 80s in the Calgary zone.	358
2020-03-25	March 25 – Premier Jason Kenney announced 61 new cases of COVID-19 Wednesday, the largest day-over-day increase yet.	419
2020-03-26	March 26 – Alberta has 67 more cases of COVID-19, but the province announced that 27 of the 486 total patients have recovered from the virus.	486

How it began

THE LIES THAT BIND

In Alberta, on March 12th, 2020 (without any legislative authority), the Alberta Government Cabinet and Chief Medical Officer of Health (CMOH) Dr. Deena Hinshaw ordered almost all gatherings of **250** people or over **CANCELLED**

<https://www.youtube.com/watch?v=CmKWIRUmXUQ>

<https://www.alberta.ca/release.cfm?xID=6980324A5B1B0-BC2C-40A8-A6AD9E30E3189425>

This effectively closed many businesses and leisure facilities overnight. Some never recovered from this.

JUST TWO WEEKS. – What happened in those two weeks?

A total of 486 'Cases' of COVID were reported in Alberta in live updates each day (and through Mainstream and Social Media platforms).

After 2 weeks, the **CMOH**, current **Deputy CMOH Dr. Mark Joffe**, (now **Alberta's CMOH under Premier Danielle Smith**) and Media reported;

<https://www.youtube.com/live/fLgH1glyVhQ>

<https://edmonton.ctvnews.ca/alberta-confirms-67-more-cases-of-covid-19-27-patients-have-recovered-1.4869491>

" March 26 – Alberta has 67 more cases of COVID-19, but the province announced that 27 of the 486 total patients have recovered from the virus."

Yet, the data from Alberta Health shows **ONE ACTIVE CASE!!!** (485 recovered cases by March 26th, 2020).

Would you have given up everything had you known?

So, what is the 'Truth'

It appears that the government 'truth' depends on the narrative and the 'day'

Today's 'truth' for AHS is 66 deaths in the last two weeks.

Other notable COVID-19-related information

- As of March 6, 5,622 individuals have passed away from COVID-19, including 66 deaths since the last report. We extend our condolences to the families of these individuals, and to all who have lost loved ones from any cause during this time.

Or is it 7 (one last week and 6 the week before).

It is beneficial to keep AHS workers fearful with Continuous Masking in effect... so 66 it is for AHS!

So, what is the 'Truth'

March 8th, 2023, Alberta Health reported 20 deaths in a week or is that 1 death in a week?

March 1st, 2023, Alberta Health reported 46 deaths in a week or is that 6 deaths in a week?

From January 1st, 2021, to January 12th, 2021, Alberta Health reported 300 new COVID deaths.

They never mentioned that only 31 were from 2021! Which lie is worse?

Can Artificial Intelligence Help?

Remember at the start I said we would come back to this. If you followed me this week, you will have seen some exercises with ChatGPT and Bing. What was terrifying about these new 'source of Truth' engines is how closely they fit the psychological patterns we have described tonight.

ChatGPT did two things.

1. It presented 'lies' (false facts) with confidence to the point it was hard to rationalize a counter argument, and almost impossible to cross check. As we move further down this road, it gets worse as there is nothing left to check against.
2. It confidently re wrote history and erased a portion of the population in real time.

Can Artificial Intelligence Help?

Now imagine 2020 repeating itself and all there was, was an AI that not only provided the lies for the government but ensured you believed them. Ensured you could not question them. Ensured there was only **'Their Truth'**.

Worse, as it erases from history the lies that have been told.

That has already started. How much of my recent work publishing information from 2020 do you actually remember?

What happens when they Control the Vertical and The Horizontal Where there are no Outer Limits to what they might do next...

<https://www.facebook.com/DavidandKarenD/>

So, what is the 'Truth'

There is no My Truth.
There is no Your Truth.
There is no Their Truth.

There is only THE TRUTH!!!

And the only way we get to it and hold people accountable for what they did is to have a full forensic investigation, not a government cover up.

Give me a few good police officers, and my selection of tech investigators and I will have arrests within the week.

So, a call out to my Police Colleagues, old and new.

TIME IS UP – DO YOUR JOB!

LIES, DAMNED LIES AND SADISTICS

<https://www.facebook.com/dksdata>

<https://www.facebook.com/DavidandKarenD/>

So what next?

My next steps are the same as they have been. Tracking everyone and everything. Calling out any and all who mislead or harm. Accurate and transparent data analysis will be their eventual downfall. I failed in the courts as I had no support. The judge told me it wasn't my fight. I told her, if not me, WHO. If not NOW, then WHEN? The information is there though. Please read it. Learn from it. I have covered a lot of it tonight.

For more information contact me after looking through all I have published (and continue to publish). I will ask questions to make sure you have 😊.
